LE BON GESTE POUR APPLIQUER MA CRÈME

✿ À sec avant l'application, je pince ma peau de bas en haut entre le pouce et l'index. Ce massage tonique active la microcirculation, stoppe l'évolution de la couperose et redonne de la vitalité aux muscles pour combattre l'apparition des rides. Je masse ensuite mon visage pour faire pénétrer le produit par effleurages légers dans le sens des muscles. Pour le cou, j'applique la crème sous le menton, et je masse légèrement en allant du bas vers le haut pendant une ou deux minutes.
