BORSSPELDE

Borsspelde is op die oomblik die normmeeren-luweelstuk. Of dit nou uit jou ouma se kas kom, of nuut uit die winkels, een moet jy hê. Moenie bang wees vir 'n bietjie blink nie, of selfs nie vir plastiek soos hierdie een nie. Prada het hul uitrustings met soortgelyke blom-borsspelde algerond. Die borsspelde hoef ook nie net op die gewone plek, op jou kraag of skouer, vasgesteek te word nie - speel 'n bietjie en kyk hoe lyk 'n borsspelde aan die bokant van 'n romp, of 'n klompie teen die skouer van 'n sik baadjie.

“Horses see humans naturally as predators, you have to understand their language. It’s gestural. By watching them I’ve learned that you have to be strong, but full of love. Then you become their protector, and in return they offer you the honour to ride them.”

*Jean-François Pignon,
horse whisperer*
