Exaggerated liner

Talk about drama! Leave the rest of your eyes bare, and add a thick striking layer of winged liner that extends all the way to the eyebrow tail. If you're feeling brave, wear it in black or a bright colour.

Hair-ty

Traditionally, bobby pins aren't supposed to be seen. But, if you're edgy and artistic, you can create unique geometric shapes to do a fauxhawk or push hair back.

Texture clash

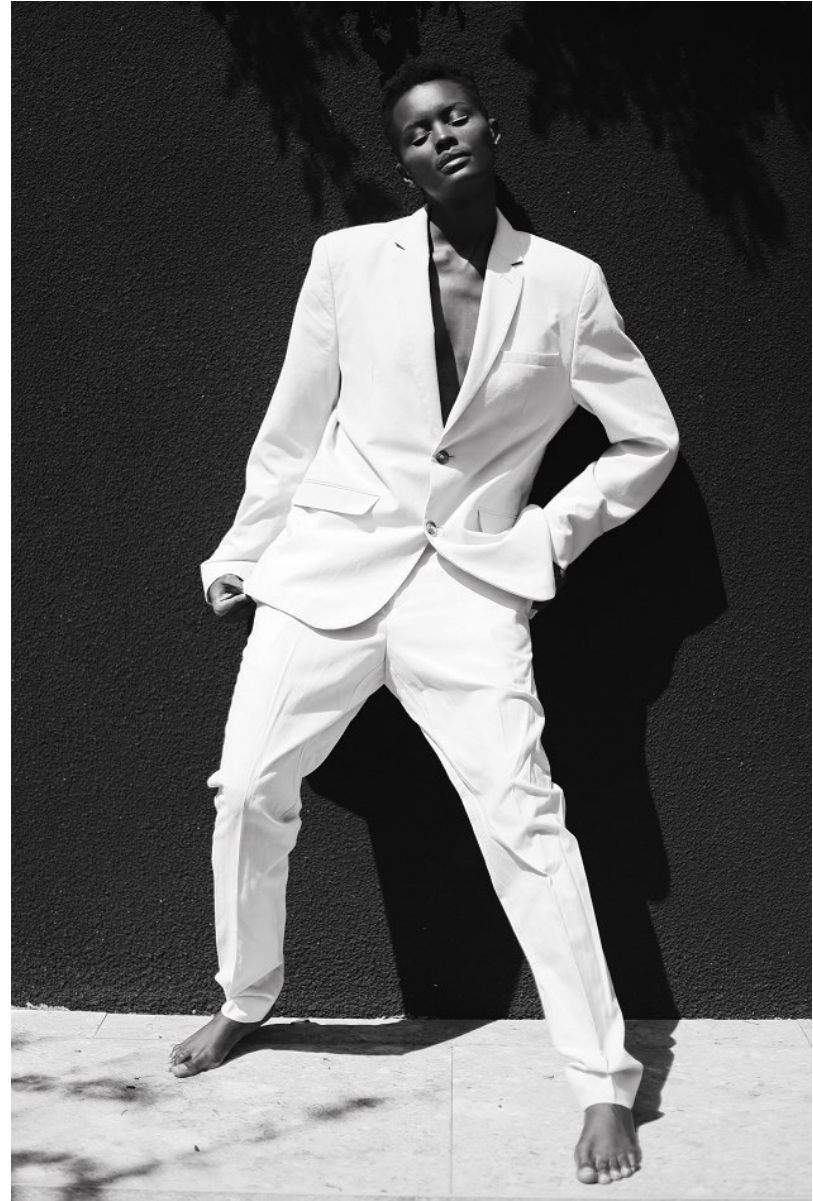

Play around with textures to explore different ways of wearing your hair. For example, plait half of your head and leave the other one in an Afro or half natural so you can add a hairpiece. Plaiting your hair or covering it up protects it from harmful elements.
